DETAILED OFFICE ACTION

Allowable Subject Matter

Claims 1, 3-12 are allowed.

Reason Of Allowance

The following is an examiner's statement of reasons for allowance:

After reviewing the applicant's remark carefully, the Examiner concurs with the applicant that the Bertocchi's laminated core with "clearance" (in Fig. 4, and column 3) is circumferentially enable to rotate at a relative angle between the die (10) and core strip for changing their positions a predetermined angle B in order to flatten deviations in the metal strip with respect to the thickness or mechanical properties of the material in the laminations, after stacking. This is very different from the claimed invention.

Thus, *in combination with other limitations recited in the claims*, the primary reason for the allowance is the including the following inventive features of a skew shape variable laminated iron core in which plural iron core pieces are laminated through caulking projections and caulking holes in which the caulking projections are fitted, particularly *with the upper and lower layers laminated together and the caulking projection of the iron core piece of the upper layer fitted in the caulking hole of the iron core piece of the lower layer, the caulking projection of the iron core piece of the upper layer is movable circumferentially within the caulking hole of the iron core piece of the lower layer to thereby allow the laminated iron core pieces of the upper and lower layers to move relative to each other around the rotation center a*

predetermined amount, as determined by relative circumferential dimensions of the caulking projection of the core piece in the upper layer and caulking hole of the iron core piece of the lower layer.

Comparing to the prior-art of the record, none of the prior art references of the record, either stand-alone or in combination, has taught or suggest the above-mentioned features in combination with other limitations recited in the claims. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
